

1. Marketing Campaign

Cover

IEP – Interactive Event Planner

B2B4C Marketing Campaign Strategy

Email + Demo + Prol Launch Plan

Prepared for: Product Launch Team

Executive Summary

IEP is an **all-in-one event planning platform** designed to help organizers create, manage, and deliver successful events.

The platform provides:

- Event creation workflows
- Budget management
- Change management tracking
- Team collaboration tools
- Resource provider marketplace
- Event analytics dashboards

The marketing campaign introduces the platform to **event planners, venues, hospitality providers, and hosts** while building a **network of resource providers and vendors**.

Campaign Objectives

Primary Goals:

1. Acquire trial users
 2. Convert trials to paid subscriptions
 3. Build marketplace vendor participation
 4. Increase platform engagement
-

Campaign Structure

Stage 1 — Awareness

Introduce the platform

Stage 2 — Education

Demonstrate the workflow

Stage 3 — Engagement

Encourage free trial

Stage 4 — Conversion

Convert to paid or event usage

Campaign Channels

Primary channels:

- Email campaigns
 - Social media promotion
 - Demo video
 - Landing pages
 - Vendor partnerships
-

Campaign Timeline

Week	Focus
Week 1	Awareness
Week 2	Workflow education
Week 3	Vendor marketplace
Week 4	Conversion

Campaign Assets

Marketing assets include:

- Email series
 - Demo workflow video
 - Social promotional images
 - Landing pages
 - Vendor marketplace promotions
-

Technology Stack

Platform	Purpose
Lovable/ Vercel	Marketing pages + UI
Supabas e	Campaign database
GitHub	Version control
Resend	Email automation

Success Metrics

Primary KPIs:

Metric	Target
Email open rate	35%
Demo engagement	20%
Trial signup	10–15%
Trial → Paid	20–30%

Marketplace Metrics:

Metric	Target
Vendor signups	200
Vendor bookings	15%

2. Supabase SQL Schema for Marketing Automation

Below is a **complete marketing automation schema**.

Subscribers Table

```
create table marketing_subscribers (  
  id uuid primary key default uuid_generate_v4(),  
  email text unique not null,  
  name text,  
  user_type text,  
  organization text,  
  signup_source text,  
  created_at timestamp default now()  
);
```

User types include:

- Event Organizer
 - Event Planner
 - Venue Owner
 - Hospitality Provider
 - Host
 - Partner
-

Campaign Table

```
create table marketing_campaigns (  
  id uuid primary key default uuid_generate_v4(),  
  campaign_name text,
```

```
campaign_type text,  
start_date timestamp,  
end_date timestamp  
);
```

Campaign Email Table

```
create table marketing_emails (  
id uuid primary key default uuid_generate_v4(),  
campaign_id uuid references marketing_campaigns(id),  
email_name text,  
subject_line text,  
send_day integer,  
template_key text  
);
```

Email Delivery Table

```
create table email_delivery (  
id uuid primary key default uuid_generate_v4(),  
subscriber_id uuid references marketing_subscribers(id),  
email_id uuid references marketing_emails(id),  
sent_at timestamp,  
opened boolean default false,  
clicked boolean default false  
);
```

Conversion Table

```
create table marketing_conversions (  
id uuid primary key default uuid_generate_v4(),  
subscriber_id uuid references marketing_subscribers(id),  
conversion_type text,  
conversion_date timestamp default now(),  
value numeric  
);
```

Conversion types:

- Starter Plan signup
 - Paid subscription
 - Vendor registration
-

3. Lovable Marketing Analytics Dashboard

Recommended dashboard widgets for campaign monitoring.

Campaign Overview Panel

Displays:

- Total subscribers
 - Active campaigns
 - Emails sent
 - Starter Plan sign ups
-

Email Performance Panel

Metrics:

- open rate
- click rate
- conversion rate

Visualizations:

- Email funnel chart
 - campaign performance graph
-

User Segmentation Panel

Segments users by:

- Event planners
- Venues
- Hosts
- Hospitality providers
- Partners

Purpose:

Track which audience converts best.

Vendor Marketplace Growth

Shows:

- vendor signups
- vendor bookings
- vendor category distribution

Vendor categories:

- Catering
 - Decor
 - Photography
 - Rentals
 - Entertainment
-

Event Planning Activity

Tracks:

- events created
 - collaborators added
 - vendors booked
 - budgets tracked
-

4. Social Media Ad Creatives

These creatives are designed for **LinkedIn, Instagram, and Facebook** promotion.
