

IEP SaaS Email Campaign Plan

Stack: Lovable + Supabase + GitHub + Resend

Business Model: B2B4C (Event planning professionals + Hosts + Venues)

1. Core Campaign Message

Brand Positioning

IEP – The All-in-One Event Planning Command Center

Key Value Message

Create, manage, process change requests and make a system successful events from one planning platform.

Key Features Message Pillars

1. **Create Events**
 - Launch events with templates and structured planning workflows
2. **Manage Budgets**
 - Track spending, vendor costs, and financial allocations
3. **Manage Changes**
 - Built-in change management for updates, approvals, and revisions
4. **Team Collaboration**
 - Assign roles, tasks, and responsibilities across event teams
5. **Analytics & Progress**
 - Monitor event readiness and completion progress
6. **Resource Marketplace**
 - Connect with vetted vendors, service providers, and retail partners

Short Tagline

Plan Smarter. Collaborate Faster. Deliver Exceptional Events.

2. Target Audience Segments

Primary Subscribers (Platform Users)

Segment	Use Case
Event Organizers	Corporate or social event coordination
Event Planners	Professional planners managing multiple events
Venue Owners	Venue booking + vendor coordination
Hospitality Providers	Hotels, catering teams
Hosts	Weddings, parties, milestone events
Strategic Partners	Event companies and associations

Resource Providers (Sidebar Directories/Usage Content Providers)

Provider	Role
	Please reference “IEP Business Rules” item #12 for complete Resource List
Service Rentals	Tables, chairs, tents etc (sometime Suppliers are External Vendors and appear in both directories)
Service Vendors	Catering, photography etc
External Vendors	Legal, security, wholesalers etc.

3. Email Campaign Timeline

Campaign duration: **30 Days**

Aligned with **typical event planning milestone stages**

Campaign Stage	Timeline	Objective
Awareness	Day 1–7	Introduce platform

Education	Day 8–14	Demonstrate workflow
Engagement	Day 15–21	Encourage starter plan
Conversion	Day 22–30	Convert to paid

4. Email Send Schedule

Email	Day	Subject Line	Goal
Email 1	Day 1	Plan Events Without Chaos	Introduce platform
Email 2	Day 4	Your Event Planning Command Center	Explain features
Email 3	Day 7	See How Events Are Built in Minutes	Demo video
Email 4	Day 12	Stop Managing Events in Spreadsheets	Workflow education
Email 5	Day 16	Collaborate With Your Entire Event Team	Collaboration feature
Email 6	Day 21	Find Vendors in One Place	Resource marketplace
Email 7	Day 25	Track Budget, Changes & Progress	Analytics
Email 8	Day 30	Start Planning Your Next Event Today	Conversion

5. Email Content Templates

Plan Events Without Chaos

Hello,

Planning events shouldn't require juggling spreadsheets, endless emails, and disconnected tools.

IEP (Ida Event Planner) gives you a **single platform to create, manage, and deliver successful events.**

With IEP you can:

- Create and organize event timelines
- Track budgets and vendor costs
- Assign tasks to your team
- Manage event changes and updates
- Monitor progress in real time
- Connect with trusted vendors

Whether you're a professional event planner, venue owner, or hosting a major celebration, IEP simplifies the entire planning process.

See how event professionals are transforming their workflow.

Your Event Planning Command Center

Hello,

Events have many moving parts.

IEP (Ida Event Planner) brings them together in one place.

Inside the platform you can:

Create Events

Use templates to launch events in minutes.

Manage Budgets

Track costs across vendors, supplies, and services.

Manage Changes

Approve updates and keep your team aligned.

Collaborate

Assign tasks to planners, vendors, and partners.

Monitor Progress

Track timelines and completion milestones.

Access Resource Providers

Connect with retailers, vendors, and service providers.

IEP isn't just software.

It's the **command center for successful events**.

9. Resend Email Automation Flow

Example trigger logic.

Trigger:
New subscriber added

Day 1 → Send Email 1
Day 4 → Send Email 2
Day 7 → Send Email 3
Day 12 → Send Email 4
Day 16 → Send Email 5
Day 21 → Send Email 6
Day 25 → Send Email 7
Day 30 → Send Email 8

10. Lovable Frontend Integration

Recommended pages for campaign funnel.

Page	Purpose
Landing Page	Product overview
Demo Page	Workflow demo video
Signup Page	Start free starter plan!
Resource Marketplace	Vendor discovery
Analytics Dashboard	Feature showcase

11. Success Metrics

Acquisition Metrics

Metric	Target
Email open rate	30–40%
Click rate	8–12%
Demo views	20% of clicks

Conversion Metrics

Metric	Target
Starter signups	10–15%
Starter! → Paid	20–30%

Resource Marketplace Metrics

Metric	Target
Vendors listed	200+
Vendor bookings	15% of events

12. GitHub Campaign Repository Structure

```

/marketing
/email_templates
/campaign_schedule
/social_media_assets
/demo_script
/analytics_queries

```

13. Recommended Monthly Campaign Cycle

Month 1
Launch campaign

Month 2
Add case studies and testimonials

Month 3
Introduce vendor marketplace promotions
